

Starasia Wright

EDUCATION

Computer Science (B.A.), Hunter College

New York, NY | Aug 2014 - May 2021 | 3.4 GPA

EXPERIENCE

WiTNY Participant, Cornell Tech

New York, NY | January 2018 - Present | [Company Website](#)

- Invited as guest speaker on the WiTNY Advisory Committee and panelist at the "WiTNY Pi Day Event: Inclusive Leadership Discussion" to share winternship experience, and empower, retain and increase the inclusion of women in tech.

Engineering Intern, Betterment

New York, NY | January 2018 | [Company Website](#)

- Out of 500 applicants, one of 177 selected for three-week long paid winternship.
- Learned iOS development and gained exposure to UI paradigms by building and compiling programs in Objective-C and Swift using XCode
- Successfully built unit tests in Swift.
- Learned version control best practices by contributing to Betterment's production codebase on GitHub
- Worked collaboratively with the Lead Engineer, Product Manager and Engineering team to develop, present, and launch Demo Mode, a feature on the Betterment mobile app.
- Used Objective-C, Swift and stubbing library (OHHTTPStubs) to insert pre-fabricated, example user data into the network layer without requiring widespread changes to the user interface

Web Development Intern, QuallsBenson

New York, NY | November 2014 - May 2015 | [Company Website](#)

- Worked directly with Senior Web Developer to optimize the responsive design of the company website using a Wordpress CMS and PHP.

Amazon Alexa Workshop

April 2018

- Used cloud-based voice service, Alexa, and ASK, a collection of self-service APIs, tools, documentation, and code samples, to build a program that iterates five facts to the user

CLASS PROJECTS

[Playlist](#)

September 2018

- Used C++ to design a program that uses an Abstract Data Type to store and queue songs for a playlist

[The Genius Bar](#)

August 2018

- Used C++ to design a program for scheduling customers at the Apple Genius Bar which provides the customer's name and their problematic device, assigns technicians to a customer and updates current wait time

[Payroll Computation](#)

March 2015

- Used C++ to design and develop a payroll management program that calculates an employee's weekly net pay after conditional deductions, which includes state and federal taxes and the number of exemptions

LEADERSHIP

Women in Computer Science (WiCS) at Hunter College
Event Planner
Dean's List (Spring 2015 and Fall 2017)

COURSEWORK

Computer Architecture
Discrete Mathematics
Software Analysis & Design I-II

SKILLS

Programming:

Proficient:

C++
HTML/CSS

Familiar:

Javascript
Objective-C
Swift
PHP

Operating:

Proficient:

Linux
iOS

Familiar:

Windows

Developmental:

Proficient:

XCode

Familiar:

MinGW

INTERESTS

Online

Computational Linguistics
Artificial Intelligence
Mobile App Development
Natural Language Processing
UI / UX Design Trends

Offline

Psychology
Modern/ Contemporary Arts
& Crafts
Drawing
Inclusion & Diversity
